FNMA NON-CITIZEN BORROWER ELIGIBILITY

Fannie Mae purchases and securitizes mortgages to non-citizens who are lawful permanent or non-permanent residents of the United States under the same terms available to U.S. citizens.

Eligibility Guidelines

The purpose of this document is to provide additional guidance to assist lenders in determining eligibility for non-U.S. citizen borrowers.

- Per the FNMA Selling Guide, Fannie Mae considers a borrower legally present in the United States if:
 - They have a Social Security Number (SSN); and
 - They have current, verified status, which may be documented by a valid employment authorization document (EAD), or other documentation showing immigration status is current (e.g., Green Card, work visa, etc.).
- A borrower who is legally present per the Selling Guide must meet all other applicable underwriting and eligibility requirements for the loan to be eligible for sale to Fannie Mae. This includes the continuity of income requirements that apply to all borrowers:
 - Documentation of income continuity is not required for most employment-related income types (e.g., base, bonus, overtime, commission).
 - If a borrower is reliant on income for which documentation of continuity is required, the mere fact that a borrower has current, verified status does not impact the continuity of income analysis. For example, if a borrower can provide documentation of 3-year income continuity when required, the fact that their status is renewed only every 2 years is not a factor — the borrower is legally present and has met the continuity of income requirements.
- Lenders retain discretion as individual borrower situations differ.
- Lenders can continue to decide what type of documentation is appropriate and what can be retained as part of the loan file to show that a borrower is legally present.
